8. Power outlet main switch

Rear seat entertainment system controller

To use the buttons under the cover, slide the cover down.

Opening and closing the display

n Opening and closing the display

▶ Without navigation system

l Open

Press

, , or ▶II.

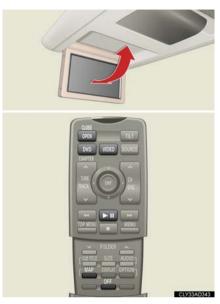
l Close

Press

or .

If the display is closed with an image shown, the image will automatically turn off. (The sound will not be turned off.)

Opening and closing operations can be performed from the front seat. (→P. 245)

▶ With navigation system


l Open

Press

, , , or .

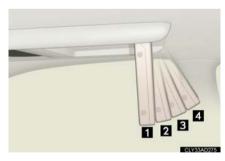
l Close

Press

or .

If the display is closed with an image shown, the image will automatically turn off. (The sound will not be turned off.)

Opening and closing operations can be performed from the front seat. (→P. 245)

n **Tilting the display**


The display angles change as follows each time TILT is pressed.

The display angle is memorized and will be recalled when the "ENGINE START STOP" switch is turned to ACCESSORY or IGNITION ON mode again.

Caution screen

This screen appears for a few seconds when the rear display is opened. During this time, only can be operated.

Headphone jacks (if equipped)

To listen to the rear audio, use headphones.

1 To use the headphones
Connect them to the jack.

2 To adjust the volume
Turn the knob clockwise to increase the volume. Turn the knob counterclockwise to decrease the volume.

Changing the source

Press SOURCE to display the audio source selection screen.

Select an audio source.

Changing the speaker output

To play the rear audio over the speakers in the vehicle, turn Speaker Output on.

The rear seat entertainment system can be used when

The “ENGINE START STOP” switch is in ACCESSORY or IGNITION ON mode.

Jam protection function

The display will stop closing and return to its previous position if something gets in the way of it closing.

When ⊘ appears on the screen

It indicates that the selected icon cannot be used at this time.

Rear system lock

→P. 245

Before using the controller (for new vehicle owners)

An insulating sheet is set to prevent the batteries from being depleted. Remove the insulating sheet before using the remote control.

When the controller batteries are fully depleted

Remove the depleted batteries and install new batteries.

Headphones

With some headphones generally available in the market, it may be difficult to catch signals properly. Lexus recommends the use of Lexus genuine wireless headphones.

Contact your Lexus dealer for further details.

■ **Volume**

- Adjust the volume when you connect the headphones to the jack. Loud sounds may have a significant impact on the human body.
- Conversational speech on some DVDs is recorded at a low volume to emphasize the impact of sound effects. If you adjust the volume assuming that the conversations represent the maximum volume level that the DVD will play, you may be startled by louder sound effects or when you change to a different audio source. Be sure to adjust the volume with this in mind.

■ **When the rear seat entertainment system is not used**

Keep the display closed.
In the event of an accident or sudden braking, an occupant may hit the opened display resulting in injury.

■ **To prevent accidents and electric shock**

Do not disassemble or modify the remote control.

■ **When the remote controller is not used**

Stow the remote controller.
Injuries may result in the event of an accident or sudden braking.

■ **Closing the display**

Never use any part of your body to intentionally activate the jam protection function.

■ **For vehicles sold in the U.S.A. and Canada**

- Laser products (→P. 311)

NOTICE

n **Cleaning the display**

Wipe the display with a dry soft cloth.
If the screen is wiped with a rough cloth, the surface of the screen may be scratched.

n **To prevent damage to the remote control**

- Keep the remote control away from direct sunlight, high temperature and high humidity.
- Do not drop or knock the remote control against hard objects.
- Do not sit on or place heavy objects on the remote control.

n **DVD player**

Never try to disassemble or oil any part of the DVD player. Do not insert anything other than a disc into the slot.

n **Closing the display**

Do not close the display using your hand. Doing so may result in a malfunction.

Using the radio

Select radio mode on the source screen to display the control screen.

Selecting a preset station

Press ∧ or ∨ on until the desired station band appears on the screen.

Tuning the station

Press ∧ or ∨ on until the desired station appears on the screen.

Press ∧ or ∨ on and the stations will be searched automatically one after another.

Using the front DVD player

1 Turning on DVD player mode

2 Selecting a disc

Selecting a disc

Press ∧ or ∨ on until the desired slot number appears on the screen.

- Audio CD, CD text →P. 380
- MP3/WMA disc →P. 381
- DVD video/audio →P. 383
- Video CD →P. 396

Using the rear DVD player (if equipped)

Press [DVD] or select "Rr-DVD" on the source screen to display the control screen.

Loading a disc

STEP 1

Open the cover.

STEP 2

Insert the disc into the slot with the label side up.

The "DISC" indicator light turns on while the disc is loaded.

The player will play the track or chapter, and will repeat it after it reaches the end.

STEP 3 Close the cover.

Ejecting a disc

Open the cover.

Press ⏏ and remove the disc.

STEP 3 Close the cover.

Playing a disc

- Audio CD, CD text →P. 380
- MP3 disc →P. 381
- DVD video/audio →P. 383
- Video CD →P. 396

The rear DVD player cannot play WMA files.

Playing an audio CD/CD text

■ Selecting a track

Press ∧ or ∨ on until the desired track number appears on the screen.

■ Fast forwarding or reversing a track

Press and hold ∧ or ∨ on .

Playing WMA (front DVD player only)/MP3 discs

Selecting a file

Press ∧ or ∨ on until the desired file number appears on the screen.

Selecting a folder

Press ∧ or ∨ on

until the desired folder number appears on the screen.

Fast forwarding or reversing a file

Press ∧ or ∨ on .

Playing the HDD audio (vehicles with navigation system)

Select "HDD" on the source screen to display the control screen.

Selecting a track

Press ∧ or ∨ on CHAPTER TUNE TRACK until the desired track number appears on the screen.

Selecting a list

Press ∧ or ∨ on FOLDER until the desired track number appears on the screen.

Fast forwarding or reversing a track

Press ∧ or ∨ on

.

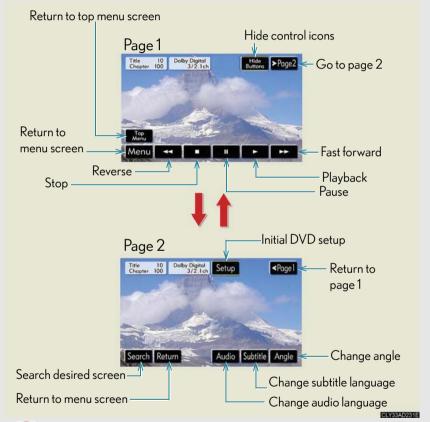
Playing a DVD video/audio

■ Controller

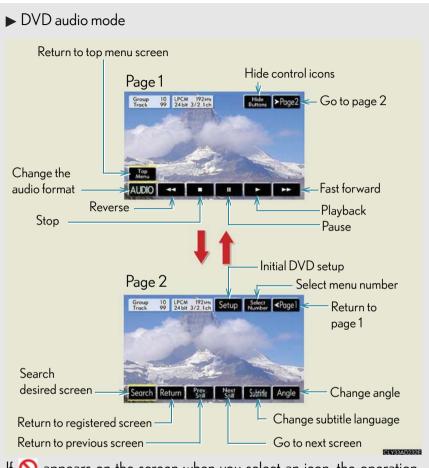
1. Turning on the DVD mode
2. Selecting a chapter/track
3. Reversing a disc
4. Turning on the title selection screen
5. Changing the subtitle language
6. Turning on the control icon screen
7. Changing the audio language
8. Stopping a disc
9. Turning on the menu disc
10. Fast forwarding a disc
11. Playing/pausing a disc
12. Selecting an icon
13. Inputting the selected icon

n Control icon screen

Press OPTION if no icons are shown while watching a DVD video, and the following screen appears.

▶ DVD video mode


If 🚫 appears on the screen when you select an icon, the operation relevant to that control is not permitted.

▶ DVD audio mode


If 🚫 appears on the screen when you select an icon, the operation relevant to that control is not permitted.

Turning on or off the control icons

Press OPTION to turn on the control icons.

Press OPTION once again or select Hide Buttons to turn off the control icon.

Turning on the title selection screen

Press TOP MENU or select Top Menu to turn on the title selection screen. For the operation of the title selection screen, see the separate manual for the DVD disc.

Turning on the menu screen (DVD video mode only)

Press MENU or select Menu to turn on the menu screen. For the operation of the menu screen, see the separate manual for the DVD disc.

Fast forwarding/reversing a disc

Perform either of the following:

l Select ►► or ◄◄ on the screen by pressing and holding .

l Press and hold ∧ or ∨ on .

Slow playback

Select II and then select ►►. Video is played slowly when you select ►► by pressing and holding ENT.

Returning to the previous screen

Select Return to return to the previous screen. For the operation of the menu screen, see the separate manual for the DVD disc.

Searching a desired screen

Searching by title (DVD video mode)

STEP 1 Select Search on the control icon screen.

STEP 2

Input the desired title number and then select Enter.

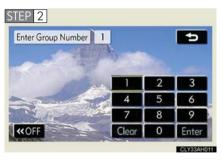
Clear: deletes the last input number

« OFF: hides the icons. To display the icons, select » ON.

↩: returns to the previous screen

Searching by group (DVD audio mode)

STEP 1 Select Search on the control icon screen.

STEP 2


Input the group number and then select Enter.

Clear: deletes the last input number

« OFF: hides the icons. To display the icons, select » ON.

↩: returns to the previous screen

3

Interior features

n Playing a bonus group (DVD audio mode only, if the DVD has bonus options)

STEP 1 Select Search on the control icon screen.

STEP 2

Input the desired bonus group number on the group search screen and select Enter.

◄ : deletes the number

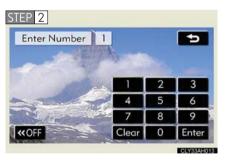
↩ : returns to the previous screen

n Searching by chapter/track

Press ∧ or ∨ on [CHAPTER TUNE TRACK] to select a chapter/track.

n Selecting a menu number (DVD audio mode only)

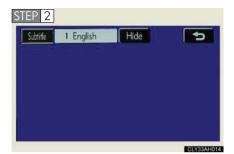
STEP 1 Select Select Number on the control icon screen.

STEP 2


Input the desired menu number on the screen and select Enter.

Changing the subtitle language

STEP 1 Press SUB TITLE or select Subtitle on the control icon screen.

STEP 2


Select Subtitle.

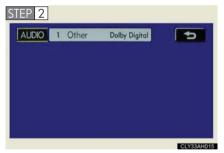
Each time you press ENT, the next available language is selected.

Hide: hides the control icons

⮌: returns to the previous screen

Changing the audio language (DVD video only)

STEP 1 Press AUDIO or select Audio on the control icon screen.

STEP 2


Select AUDIO.

Each time you press ENT, the next available language is selected.

⮌: returns to the previous screen

Changing the audio format (DVD audio only)

STEP 1 Press AUDIO or select AUDIO on the control icon screen.

STEP 2

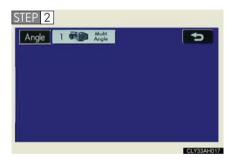
Select Audio.

Each time you press ENT, the next available audio format is selected.

: returns to the previous screen

Changing the angle (If the angle option is available)

STEP 1 Select Angle on the control icon screen.

STEP 2


Select Angle.

Each time you press ENT, the next available angle is selected.

: returns to the previous screen

Initial DVD setup

■ Displaying “Setup Menu” screen

STEP 1 Select Setup on the control icon screen.

STEP 2

After you change the initial settings, select Enter.

Default: restores default settings

■ Setting audio language

STEP 1 Select Audio Language on the “Setup Menu” screen.

STEP 2 Select the desired language.

If you cannot find the desired language, select Other and input the desired language code. (→P. 393)

⮌: returns to the previous screen

■ Setting subtitle language

STEP 1 Select Subtitle Language on the “Setup Menu” screen.

STEP 2 Select the desired language.

If you cannot find the desired language, select Other and input the desired language code. (→P. 393)

⮌: returns to the previous screen

■ Setting menu language

STEP 1 Select DVD Language on the “Setup Menu” screen.

STEP 2 Select the desired language.

If you cannot find the desired language, select Other and input the desired language code. (→P. 393)

⮌: returns to the previous screen

Setting angle mark “ON” or “OFF”

If the DVD has angle options, you can turn the angle mark on or off.

Select Angle Mark on the “Setup Menu” screen. Each time you press ENT, the multi angle mark on the screen turns on or off alternately.

Parental lock

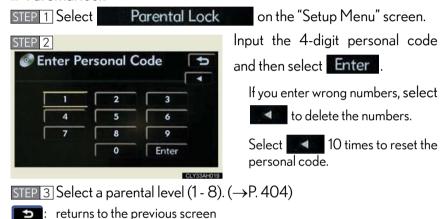
STEP 1 Select Parental Lock on the “Setup Menu” screen.

STEP 2

Input the 4-digit personal code and then select Enter.

If you enter wrong numbers, select ◀ to delete the numbers.

Select ◀ 10 times to reset the personal code.

STEP 3 Select a parental level (1 - 8). (→P. 404)


⮌: returns to the previous screen

Entering a language code

If you select Other on the “Select Audio Language” screen, “Select Subtitle Language” screen or “DVD Language” screen, you can select a language by entering the 4-digit language code if that language is available.

Input the 4-digit language code and then select Enter.

◀: deletes the last input digit

⮌: returns to the previous screen

n **Error messages**

If “Region Code Error” is displayed, check the region code printed on the DVD matches the player's region code.

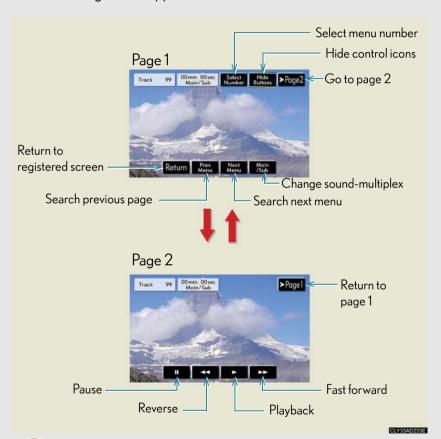
If a different message is displayed: →P. 400

Playing a video CD

■ Controller

1. Selecting a track
2. Reversing a disc
3. Turning on the control icon screen
4. Stopping a disc
5. Fast forwarding a disc
6. Playing/pausing a disc
7. Selecting an icon
8. Inputting the selected icon

Control icon screen

Press OPTION if no icons are shown while watching a video CD, and the following screen appears.


If ⊘ appears on the screen when you select an icon, the operation relevant to that control is not permitted.

Fast forwarding/reversing the video CD

Perform either of the following:

- Select or on the screen by pressing and holding .
- Press and hold ∧ or ∨ on

.

Slow playback

Select and then select . Video is played slowly when you select by pressing and holding .

Using the video CD menu

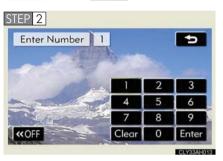
Select Return.

Refer to the manual that comes with the video CD for specific menu items.

Selecting a desired screen

Selecting a menu number

STEP 1 Select Select Number on the control icon screen.

STEP 2


Input the desired menu number on the screen and select Enter.

Searching manually

Select Prev. Menu or Next Menu on the screen, or press ∧ or ∨ on CHAPTER TUNE TRACK until the desired screen appears.

Changing the sound-multiplex mode

Select Main /Sub on the control icon screen. The mode cycles through each time the ENT is pressed.

"Main" → "Sub" → "Main/Sub"

DVD player and DVD video disc information

Error messages

Refer to the following table and take the appropriate measures. If the problem is not rectified, take the vehicle to your Lexus dealer.

Message	Cause	Correction Procedures
No Disc	There is no disc in the player.	Insert a disc.
DISC X Check	• The disc X is dirty or damaged. • The disc X is inserted upside down. • The disc X is not playable with the player.	• Clean the disc. • Insert the disc correctly. • Confirm the disc is playable with the player.
DVD Error	• There is a malfunction within the system. • Operation is stopped due to a high temperature inside the player.	• Eject the disc. • Eject the disc and allow the player to cool down.
NO MUSIC FILE	This indicates that no playable data is included in the disc.	Eject the disc.

n **DVD video discs**

l The DVD player conforms to NTSC color TV formats.

l Region code: Some DVD video discs have a region code indicating the region in which you can use the DVD video disc. If the DVD video disc is not labeled as “ALL” or “1”, you cannot use it on this DVD player. If you attempt to play an inappropriate DVD video disc on this player, “Region Code Error” appears on the screen. Even if the DVD video disc does not have a region code, you may not be able to use it.

l The rear DVD player does not support multi-channel surround sound. (only 2-channel sound is output.)

Symbols shown on DVD video discs

Symbol	Meaning
NTSC	Indicates NTSC format
2	Indicates the number of audio tracks
2	Indicates the number of language subtitles
3	Indicates the number of angles
16:9 LB 4:3	Indicates the screen display ratios available Wide screen: 16:9 Standard: 4:3
ALL 1	Indicates the disc's region code ALL: in all countries Number: region code

Discs that can be used

Discs with the marks shown below can be used.
Playback may not be possible depending on recording format or disc features, or due to scratches, dirt or deterioration.

CDs with copy-protection features may not play correctly.

DVD player protection feature

To protect the internal components, playback is automatically stopped when a problem is detected while the DVD player is being used.

If discs are left inside the DVD player or in the ejected position for extended periods

Discs may be damaged and may not play properly.

Lens cleaners

Do not use lens cleaners. Doing so may damage the DVD player.

DVD video disc information

- DVD video discs
  A DVD video disc is a Digital Versatile Disc that holds video. DVD video discs have adopted “MPEG2”, one of the world standards of digital compression technologies. The picture data is compressed by 1/40 on average and stored. Variable rate encoded technology in which the volume of data assigned to the picture is changed depending on the picture format has also been adopted. Audio data is stored using PCM and Dolby digital, which enables higher quality of sound. Furthermore, multi-angle and multi-language features will also help you enjoy the more advanced technology of DVD video.
- Viewer restrictions
  This feature limits what can be viewed in conformity with the level of restrictions of the country. The level of restrictions varies depending on the DVD video disc. Some DVD video discs cannot be played at all, or violent scenes are skipped or replaced with other scenes.

  Level 1: DVD video discs for children can be played.

  Level 2-7: DVD video discs for children and G-rated movies can be played.

  Level 8: All types of DVD video discs can be played.
- Multi-angle option
  You can enjoy the same scene from different angles.
- Multi-language option
  You can select the subtitle and audio languages.
- Region codes
  The region codes are provided on DVD players and DVD discs. If the DVD video disc does not have the same region code as the DVD player, you cannot play the disc on the DVD player. (→P. 401)
- Audio
  This DVD player can play linear PCM, Dolby Digital and MPEG audio format DVDs. Other decoded types cannot be played.
- Title and chapter
  Video and audio programs stored in DVD video discs are divided into parts by title and chapter.

  Title: The largest unit of the video and audio programs stored on DVD video discs. Usually, one movie, one album, or one audio program is assigned as a title.

  Chapter: A title is comprised of one or more chapters.

n **Sound**

l Dolby Digital
Manufactured under license from Dolby Laboratories.
"Dolby", "Pro Logic", and the double-D symbol are trademarks of Dolby Laboratories. Confidential unpublished works.

This product incorporates copyright protection technology that is protected by method claims of certain U. S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation.
Reverse engineering or disassembly is prohibited.

l DTS
"DTS" and "DTS Digital Surround" are registered trademarks of Digital Theater System, Inc.

n **MP3 and WMA files**

MP3 (MPEG Audio LAYER 3) is a standard audio compression format.

Files can be compressed to approximately 1/10 of their original size by using MP3 compression.

WMA (Windows Media ™Audio) is a Microsoft audio compression format.

This format compresses audio data to a size smaller than that of the MP3 format.

There is a limit to the MP3 and WMA file standards that can be used and to the media/formats on which the files are recorded.

l MP3 file compatibility

- Compatible standards
  MP3 (MPEG1 LAYER3, MPEG2 LSF LAYER3)
- Compatible sampling frequencies
  MPEG1 LAYER3: 32, 44.1, 48 (kHz)
  MPEG2 LSF LAYER3: 16, 22.05, 24 (kHz)
- Compatible bit rates (compatible with VBR)
  MPEG1 LAYER3: 64, 80, 96, 112, 128, 160, 192, 224, 256, 320 (kbps)
  MPEG2 LSF LAYER3: 64, 80, 96, 112, 128, 144, 160 (kbps)
- Compatible channel modes: stereo, joint stereo, dual channel and monaural

- WMA file compatibility
  - Compatible standards
    WMA Ver. 7, 8, 9
  - Compatible sampling frequencies
    32, 44.1, 48 (kHz)
  - Compatible bit rates (only compatible with 2-channel playback)
    Ver. 7, 8: CBR 48, 64, 80, 96, 128, 160, 192 (kbps)
    Ver. 9: CBR 48, 64, 80, 96, 128, 160, 192, 256, 320 (kbps)
- Compatible media

  Media that can be used for MP3 and WMA playback are CD-Rs and CD-RWs.

  Playback in some instances may not be possible if the CD-R or CD-RW is not finalized. Playback may not be possible or the audio may jump if the disc is scratched or marked with fingerprints.
- Compatible disc formats

  The following disc formats can be used.

  - Disc formats: CD-ROM Mode 1 and Mode 2
    CD-ROM XA Mode 2, Form 1 and Form 2
  - File formats: ISO9660 Level 1, Level 2, (Romeo, Joliet)
    MP3 and WMA files written in any format other than those listed above may not play correctly, and their file names and folder names may not be displayed correctly.

  Items related to standards and limitations are as follows:

  - Maximum directory hierarchy: 8 levels (including the root)
  - Maximum length of folder names/file names: 32 characters
  - Maximum number of folders: 192 (including the root)
  - Maximum number of files per disc: 255
- File names

  The only files that can be recognized as MP3/WMA and played are those with the extension .mp3 or .wma.
- Discs containing multi-session recordings

  As the audio system is compatible with multi-sessions, it is possible to play discs that contain MP3 and WMA files. However, only the first session can be played.

- ID3 and WMA tags

  ID3 tags can be added to MP3 files, making it possible to record the track title, artist name, etc.

  The system is compatible with ID3 Ver. 1.0, 1.1, and Ver. 2.2*, 2.3 ID3 tags. (The number of characters is based on ID3 Ver. 1.0 and 1.1.)

  *: Not compatible with rear DVD player.

  WMA tags can be added to WMA files, making it possible to record the track title and artist name in the same way as with ID3 tags.

- MP3 and WMA playback

  When a disc containing MP3 or WMA files is inserted, all files on the disc are first checked. Once the file check is finished, the first MP3 or WMA file is played. To make the file check finish more quickly, we recommend you do not write in any files other than MP3 or WMA files or create any unnecessary folders.

  Discs that contain a mixture of music data and MP3 or WMA format data cannot be played.

- Extensions

  If the file extensions .mp3 and .wma are used for files other than MP3 and WMA files, they may be mistakenly recognized and played as MP3 and WMA files. This may result in large amounts of interference and damage to the speakers.

- Playback

  - To play MP3 files with steady sound quality, we recommend a fixed bit rate of at least 128 kbps and a sampling frequency of 44.1 kHz.
  - CD-R or CD-RW playback may not be possible in some instances, depending on the characteristics of the disc.
  - There is a wide variety of freeware and other encoding software for MP3 and WMA files on the market, and depending on the status of the encoding and the file format, poor sound quality or noise at the start of playback may result. In some cases, playback may not be possible at all.
  - When files other than MP3 or WMA files are recorded on a disc, it may take more time to recognize the disc and in some cases, playback may not be possible at all.
  - Microsoft, Windows, and Windows Media are the registered trademarks of Microsoft Corporation in the U.S. and other countries.

CAUTION

DVD video precaution

Conversational speech on some DVDs is recorded at a low volume to emphasize the impact of sound effects. If you adjust the volume assuming that the conversations represent the maximum volume level that the DVD will play, you may be startled by louder sound effects or startled when you change to a different audio source.

Loud sounds may have a significant impact on the human body or pose a driving hazard. Keep this in mind when you adjust the volume.

NOTICE

Discs and adapters that cannot be used

→P. 323

Player precautions

Failure to follow the precautions below may result in damage to the discs or the player itself.

- Do not insert anything other than discs into the disc slot.
- Do not apply oil to the player.
- Store discs away from direct sunlight.
- Never try to disassemble any part of the player.

Using the video mode

Press VIDEO to select the video mode.

Before switching to the video mode, connect the audio-video equipment to the A/V input adapter.

Using the adapter

▶ 5-seat models

Open the cover.

The A/V input adapter is composed of 3 input adapters.

Yellow: Image input adapter

White: Left channel audio input adapter

Red: Right channel audio input adapter

▶ 4-seat models

Changing the PAL format

Press DISPLAY.

If the video does not appear, turn PAL VIDEO on.

PAL VIDEO will be displayed when PAL format equipment is connected to the A/V input adapter.

A/V input adapter

The rear seat entertainment system plays videos and sound when audio-video equipment is connected to the A/V input adapter. For details, refer to the manufacturer's instructions.

Power outlet

The power outlet is used to connect the audio-video equipment. (→P. 484)

NOTICE

When the A/V input adapter is not in use

Keep the A/V input adapter cover closed.
Inserting anything other than an appropriate plug may cause electrical failure or a short circuit.

Changing other setting

Setting the display mode

Pressing SIZE changes the display modes sequentially as follows:

Normal→Wide 1→Wide 2

Adjusting the screen

Press DISPLAY.

Select the brightness, contrast, tone or color, and make adjustments. Press DISPLAY or ENT to input it.

	R	G
"Color"	Red	Green
	−	+
"Tone"	Lighter	Darker
